

Ten priorities for the new Secretary of State
for Health and Social Care

1. *Involve the NHS, partners and the public in developing a joint, sustainable ten-year plan for the NHS and wider system.*
2. *Set aside a proportion of the funding settlement for transformation funding.*
3. *Identify immediate funding for 2019/20 to ease the social care crisis.*
4. *Publish the social care green paper as the first step to providing a long-term sustainable funding solution for social care.*
5. *Support the digital NHS agenda.*
6. *Support the development of a workforce strategy.*
7. *Ensure a Brexit that works for the NHS and social care system.*
8. *Make parity of esteem between mental and physical health a reality.*
9. *Support the system to improve efficiency and remove unwarranted variation.*
10. *Be a strong advocate of the NHS and social care within government.*
