Ten priorities for the new Secretary of State for Health and Social Care

1. **Involve the NHS, partners and the public in developing a joint, sustainable ten-year plan for the NHS and wider system.**

2. **Set aside a proportion of the funding settlement for transformation funding.**

3. **Identify immediate funding for 2019/20 to ease the social care crisis.**

4. **Publish the social care green paper as the first step to providing a long-term sustainable funding solution for social care.**

5. **Support the digital NHS agenda.**

6. **Support the development of a workforce strategy.**

7. **Ensure a Brexit that works for the NHS and social care system.**

8. **Make parity of esteem between mental and physical health a reality.**

9. **Support the system to improve efficiency and remove unwarranted variation.**

10. **Be a strong advocate of the NHS and social care within government.**
