Sustainable Technology for Older People – Get Organised

STOP&GO PPI Project

Dr Bryan Griffiths, North West Coast AHSN

www.stopandgoproject.eu
The STOPandGO project

- Devise a novel procurement process to test out the Public Procurement of Innovation (PPI) EU approach
- Produce an outcome-based European Specification Template (EST)
- Conduct Open Market Consultation(s) (OMC)
- Procure services to the value of €17million (seven procurers in four countries)
The STOPandGO project
The STOPandGO project

Produce and validate a standard “European Specification Template” (EST) for tenders procuring health services for older people enabling innovative care models, as a support to the EU policies on Active and Healthy Ageing by piloting an innovative procurement process in a coordinated manner in 7 localities across Europe.

4 countries
7 Public Procurers

Available for review at http://stopandgoproject.eu/est

Specialist mental health

Caring together
Joining up local care for all our wellbeing
**Integrated Diabetes Service**

Formal notification of an Open Market Consultation (OMC) to canvass stakeholder feedback on procuring integrated diabetes care for the population of Eastern Cheshire.

This includes procuring technology enabled diabetes services for older people as a support to the EU policies on Active and Healthy Ageing.

The intention of NHS Eastern Cheshire Clinical Commissioning Group is to procure services up to the value of €3 000 000.

The tendering activity will see health services commissioned to benefit at least 1 250 people.
OMC Process
The UK Partners organised an event ‘Caring Together to transform health and wellbeing...delivered through Technology Enabled Care’

- Presentations
- Round Table Discussions
- Market Place

Standards required to deliver TEC Services
Commissioning and Procurement in Eastern Cheshire
Data Sharing Challenges, solutions and governance requirements

Roundtable discussions focused on 3 hypothetical scenarios concerning people with Diabetes.

Supplier Showcase and Networking plus social media campaign at the conference (Twitter).
The STOPandGO project

OMC Plan for the UK

• Consultation meeting prior to December 2015 to bring Procurers and providers/industry contacts together

• Enquires online option estfeedback@stopandgoproject.eu

• LinkedIn STOP&GO Group

STOPandGO Public Procurement of Innovative Solutions for Integrated Care of Elder Adults

The plan and the events have included representation from the CCG (procurers), the NHS, Local Authority, Industry and the public/service-users.
