

# Primary care federations supporting the COVID-19 vaccination programme

Network members were asked about the support they had provided to the COVID-19 vaccination programme.

65 federations from across all NHS regions in England responded to our survey:

Over

**85%**

supported the delivery of the COVID-19 vaccination programme.

Over

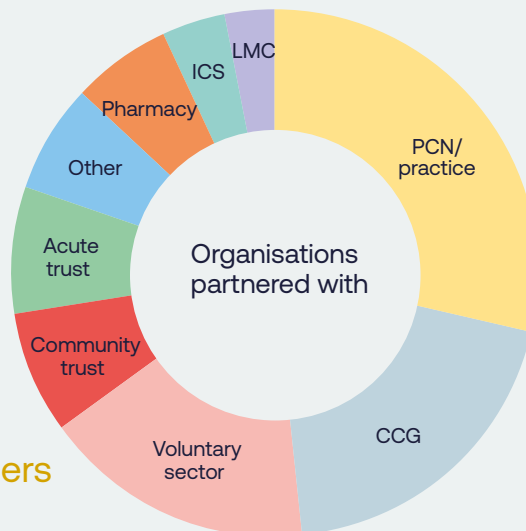

**95%**

worked in partnership with other organisations during the vaccination programme.

Over

**80%**

developed initiatives to reach minority and vulnerable groups.

“Feedback from our partners is that they couldn't and wouldn't have done it without us.”

South Downs Health and Care

“The at-scale delivery of the vaccination programme working with partners and supported by the federation was a true collaboration.”

Primary Care Manchester

What they did:

Led the programme on behalf of the local area.

Facilitated greater collaboration.

Provided workforce solutions.

Provided 'back office' support.

Found innovative ways to support local communities.
